Important Notes: The conclusions of this gemmological report reflect our findings at the time it was issued. A gemstone could be modified and/or enhanced at any time, therefore any alterations applied to the gemstone after it has been examined at the Berberyn will invalidate the report and Berberyn can reassess at any time if a stone in line with the Gemmological Report. Berberyn conduct colour stability (fade) test with the consent from the client, if client request not to perform the test and there is no mention on the report than assume 'colour stability test not performed' and the colour designation for these gemstones will be assessed from the time of submission, when gemstones have undergone colour stability test the respective comments will be noted in the report. Only the report with the valid original signatures, hologram sticker affixed on the bottom right corner of the photographic image is a valid document. See the full terms, conditions, limitations, enhancement and colour stability disclosures on reverse side.
