Spinel

Spinel can come in a wide range of colors. The name comes from the Latin spina, meaning "thorn," which refers to the shape of spinel crystals. Spinel has often been confused with ruby; the most famous of which is the 170-carat "Black Prince's Ruby" set in the Imperial State Crown of the United Kingdom. Significant sources of spinel include Myanmar, Sri Lanka, and Tanzania.

Characteristics

Mineral
Spinel

Mohs Hardness
7.5-8

Toughness
Good

Birthstone
August

Details

Item Description

One loose stone

Weight

3.01 carats

Measurements

10.70 x 6.72 x 4.00 mm

Shape

Octagonal

Color

Pink

Transparency

Transparent

Cutting Style

Step Cut

Results

Species

Natural Spinel

Additional Results

No Indications of Heating

Comments

None

9000046848
